Bylaws Amendment Proposals

James “Dino” Christianson, Region IV Board Member and Bylaws Board Liaison worked with the Bylaws Committee Chair Jackie Correa-Alley, Taurean Burt, Tracy Ivy and Treasurer Michelle Cline, reported that there were 15 proposed amendments (13 modified, 1 remove and 1 add) to the NAD Bylaws, as follows:

- 24-01 - Article II Section 1 - Object
- 24-02 - Article II Section 4 - Definition of Deaf (NEW)
- 24-03 - Article III Section 1.1 - State Association Affiliate
- 24-04 - Article III Section 1.2 - College Student Affiliates (REMOVE)
- 24-05 - Article III Section 1.4 - Sections
- 24-06 - Article III Section 2.1.i Regular Members
- 24-07 - Article III. Section 2.1.ii Senior Members
- 24-08 - Article III Section 2.3 - International Members
- 24-09 - Article IV Section 10.2 - Vice President Duties
- 24-10 - Article IV Section 10.5 - Region Representatives
- 24-11 - Article IV Section 14. - Conflict of Interest
- 24-12 - Article V Section V.I.iv - Forums
- 24-13 - Article VI Section 1 - Standing Committees
- 24-14 - Article VIII Section 1 - Amendments
- 24-15 - Article IV Section 10.1 - President’s Duties

Each of these bylaws amendment proposals were presented and discussed by the delegates as follows:

24-01 - Article II. Section 1. - Object.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

Current Language:	Proposed Changes:	If Adopted:
The object of the Association shall be to preserve, protect, and promote the civil, human and linguistic rights of deaf and hard of hearing individuals in the United States of America.	The object of the Association shall be to preserve, protect, and promote the civil, human and linguistic rights of deaf and hard of hearing individuals in the United States of America and U.S. Territories.	The object of the Association shall be to preserve, protect, and promote the civil, human and linguistic rights of deaf and hard of hearing individuals in the United States of America and U.S. Territories.

Rationale:

U.S. Territories were added to the 2022 bylaws, and want to make sure language is uniform

throughout the bylaws. The object is to focus on helping deaf and hard-of-hearing people in places such as Puerto Rico and Guam, not just within the United States. This way, individuals and organizations within those boundaries gets the support they need, no matter where they live.

Bylaws Committee Recommendations:

Last conference, someone made a motion to add U.S. Territories to the NAD Bylaws.

NAD Board's Recommendations:

The board is in agreement with the proposed language.

24-02 - Article II. Section 4. - Definition of Deaf. (NEW)

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

<p>Current Language: None - NEW</p>	<p>Proposed Changes: The definition of "Deaf" shall be the umbrella to representing the diverse communities including Deaf, DeafBlind, DeafDisabled, Hard of Hearing, Deaf BIPOC, Deaf LGBTQIA2S+, New Americans, and Late-Deafened.</p>	<p>If Adopted: The definition of "Deaf" shall be the umbrella to representing the diverse communities including Deaf, DeafBlind, DeafDisabled, Hard of Hearing, Deaf BIPOC, Deaf LGBTQIA2S+, New Americans, and Late-Deafened.</p>
--	--	---

Rationale:

For a long time, NAD has included the term "Deaf" in the bylaws as a footnote. However, its use has sparked controversy in past conferences due to differing perspectives. It is a recommended solution for the time being, signaling our commitment to inclusivity while seeking a more fitting term. It's time to formally recognize its definition to represent who we are within NAD.

Bylaws Committee Recommendations:

Introducing "Deaf" in our bylaws unifies and respects the diverse aspects of Deaf culture/community, avoiding past controversies over using the term "Deaf" to define us. The bylaws committee strongly feels there should be a language that represents all sections of the deaf communities and is in favor of the language used supporting the positivity of "Deaf".

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-03 - Article III. Section 1.1. - State Association Affiliates.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

<p>Current Language: One (1) State Association Affiliate per state, with twenty (20) or more members, shall be recognized. The District of Columbia and the American territorial entities shall be considered states under this category.</p>	<p>Proposed Changes: One (1) State Association Affiliate per state, with twenty (20) fifteen (15) or more members, shall be recognized. The District of Columbia and the American territorial entities shall be considered states under this category.</p>	<p>If Adopted: One (1) State Association Affiliate per state, with fifteen (15) or more members, shall be recognized. The District of Columbia and the American territorial entities shall be considered states under this category.</p>
--	---	---

Rationale:

To help support state associations, recruit members to establish their organization.

Bylaws Committee Recommendations:

The Bylaws committee is in support of the proposed language.

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-04 - Article III. Section 1.2. - College Student Affiliates. (REMOVE)

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

<p>Current Language: Twenty (20) or more student members of a post-secondary educational program may organize for the purpose of forming a NAD College Student Affiliate.</p>	<p>Proposed Changes: REMOVE</p>	<p>If Adopted: DELETED</p>
--	---	--

Rationale:

We have not had any College Student Affiliates for a long time.

Bylaws Committee Recommendations:

The bylaws committee is in full support of this removal.

NAD Board's Recommendations:

The Board is in agreement with removing the College Student Affiliates.

24-05 - Article III. Sections 1.4. - Sections.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

Current Language: The Association shall, within its corporate structure and criteria, allow for the formation of Sections to focus on specific areas of interest consistent with the overall aims of the Association.	Proposed Changes: The Association shall, within its corporate structure and criteria, allow for the formation of Sections to focus on specific areas of interest consistent with the overall aims goals of the Association.	If Adopted: The Association shall, within its corporate structure and criteria, allow for the formation of Sections to focus on specific areas of interest consistent with the overall goals of the Association.
--	--	--

Rationale:

The proposed change simplifies the language by replacing "aims of the Association" with "goals of the Association." This adjustment still allows for forming Sections focused on specific interests, but it's clearer and more concise.

Bylaws Committee Recommendations:

The committee is in agreement with this proposed amendment.

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-06 - Article III. Section 2.1.i. - Regular Members.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

Current Language: Regular membership status in the Association shall be conferred to residents of the United States, upon payment of annual dues.	Proposed Changes: Regular membership status in the Association shall be conferred to residents of the United States and U.S. Territories , upon payment of annual dues.	If Adopted: Regular membership status in the Association shall be conferred to residents of the United States and U.S. Territories, upon payment of annual dues.
---	--	--

Rationale:

The change is about allowing people from both the United States and U.S. Territories to become regular members by paying annual dues. It's a way to include everyone and make sure they have the chance to join.

Bylaws Committee Recommendations:

To comply with the new change in the bylaws, which includes U.S. Territories.

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-07 - Article III. Section 2.1.ii. - Senior Members.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

<p>Current Language: Senior citizen membership status shall be conferred to individuals at the age of 60 and beyond, upon payment of annual dues.</p>	<p>Proposed Changes: Senior citizen membership status shall be conferred to individuals at the age of 60 55+ and beyond, upon payment of annual dues.</p>	<p>If Adopted: Senior citizen membership status shall be conferred to individuals at the age of 55+ and beyond, upon payment of annual dues.</p>
---	--	---

Rationale:

This will give an opportunity for all senior citizen membership status to people aged 55 and older instead of 60, making it easier for more people to qualify. Currently other Organizational Affiliates recognize seniors as 50+. Receiving senior citizen membership will provide an opportunity to access various service information and additional perks.

Bylaws Committee Recommendations:

The bylaws committee is in agreement with this proposed amendment

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-08 - Article III. Section 2.3. - International Members.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

<p>Current Language: International membership status shall be conferred to individuals who do not reside in the United States, upon payment of annual dues. International members shall not vote or hold office.</p>	<p>Proposed Changes: International membership status shall be conferred to individuals who do not reside in the United States, upon payment of annual dues. International members shall not vote or hold office. Exceptions are made for those residing in U.S. Territories.</p>
---	--	---

Rationale:
The change clarifies that people living in U.S. Territories are not international members. This is to strengthen the citizens who reside in the US territories and distinguish between the two.

Bylaws Committee Recommendations:
The Bylaws committee felt this was necessary to help strengthen the language and support those who are in US Territories.

NAD Board's Recommendations:
The board is in agreement with the proposed changes for clarity.

24-09 - Article IV. Section 10.2. - Vice President Duties.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

<p>Current Language: The Vice President shall serve at any time the President is unable to serve, or when the office of the President becomes vacant.</p>	<p>Proposed Changes: The Vice President shall serve at any time the President is unable to serve, or when the office of the President becomes vacant. The Vice-President is responsible for supporting all committees and sections.</p>
--	---	--

Rationale: Currently it shows the Vice President having to only support the President, whereas

there is other work that the Vice President does which supports the Board of Directors.

Bylaws Committee Recommendations:

The bylaw committees agree with this recommendation.

NAD Board's Recommendations:

The board is in agreement with the proposed changes for clarity.

24-10 - Article IV. Section 10.5. - Region Representatives.

[Youtube Video](#)

Proposed by: NAD Bylaws Committee

Current Language:	Proposed Changes:	If Adopted:
Regional Board Members shall serve as liaison between the Board of Directors and State Associations within the region, and work with the Board of Directors as a whole. The Regional Board Members function as facilitators during conferences and virtual State Association meetings. The Regional Board Members act as a resource for State Associations and individuals in their geographical areas.

Rationale:

As stated in Article 2.3 - the Regional Board Members are in support not only of their regional State Associations, but with other individuals who reside in their represented geographical area.

Bylaws Committee Recommendations:

The committee is in full support of this revised section.

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-11 - Article IV. Section 14. - Conflict of Interest.

Rationale

The current language comprises only the binary pronouns of him/she and himself/herself, excluding individuals whose pronouns do not fit within these narrow categories. This oversight creates a loophole that may potentially absolve people of any accountability that could arise due to misgendering.

Bylaws Committee Recommendations:

Bylaw committee is in agreement not to use gendered pronouns.

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-12 - Article. Section V.1.iv. - Forums.

---	---	---

Rationale:

The process of getting input should be reflected by our diverse communities and shouldn't be exclusionary to only those at the conference.

Bylaws Committee Recommendations:

The bylaw committee is in full support.

NAD Board's Recommendations:

The board is in agreement with the proposed changes.

24-13 - Article VI. Section 1. - Standing Committees.

Rationale:
Law shall be changed to Bylaws.

Bylaws Committee Recommendations:
The bylaws committee is in agreement with the proposed language.

NAD Board's Recommendations:
The board is in agreement with the proposed changes.

24-15 - Article IV. Section 10.1. - President's Duties.

Proposed by: Bobby Jackson II
Seconded by: Jack Ludwig

<p>Current Language: The President shall be the chief spokesperson for the Association and shall chair business meetings of the biennial national conference and the Board of Directors. The president shall be an ex officio member of all committees.</p>
--	--	--

Rationale:

The spokesperson shouldn't be locked to just the President. This could be shared with the Chief Executive Officer. Furthermore, the selection of the chair is clearly stated in Article VI.1, so the section regarding chair selection is struck out.

Bylaws Committee Recommendations:

The bylaws committee is in full support of this proposed revision.

NAD Board's Recommendations:

The board is in neutral with the proposed bylaw amendment.

Priority Proposals and Resolutions

Jacob Leffler, in his role as Steering Committee Co-Chair, reported that there were 14 proposed priorities. He also shared an update about the polls and recommendations. Delegates had questions for clarification.

Title: Access to Resources for DeafDisabled Citizens

2024-IL-(PUB)-02

YOUTUBE VIDEO <https://youtu.be/rass9NN2v-k?feature=shared>

Seconded by:

Thomas Minch

Problem to be addressed:

There are many systematic barriers that DeafDisabled individuals encounter on a daily basis which includes limited access to resources and services. Many service providers are not equipped to work with DeafDisabled due to the lack of knowledge of their communication needs. As a result, they are highly likely to experience a shortage of services to meet their needs. We have many DeafDisabled citizens who deserve equality in accessing services as other community members and their peers.

Proposed Solution:

NAD will develop and implement the following:

1. Work with the U.S. Department of Health & Human Services (HHS) to ensure that their requirements are being strengthened and adapted to current issues/crises.
2. Develop a training module to educate the interpreter interpreting agencies and Interpreters Training Programs to ensure the interpreters will be knowledgeable with interpreting/providing equitable communication access with the DeafDisabled community.
3. Develop a training module to educate the agency professionals to ensure that they will be knowledgeable with providing equitable communication access and support to the Deaf/Disabled community.
4. Promote solutions that are not already addressed in the above-mentioned list.

Rationale:

There are many barriers such as:

1. Delayed in determination of eligibility for state-based long-term services (limited number of appropriate culturally competent evaluators and assessments).
2. Limited number of interpreters that are culturally competent in working with DeafDisabled individuals in different situations such as mental health crises, domestic violence, and other related emergency challenges.

3. Lack of culturally appropriate training for interpreters, providers, and professionals in terms of working with DeafDisabled individuals especially with meeting their communication needs.
4. Not enough providers and professionals know and use ASL and Visual Gesture Communication as well as Deaf Culture.

Fiscal Impact:

There are fiscal impacts such as staff time, working with Special Interest groups, and creation/communication of the development of curriculum.

Board/HQ Response:

This proposal asks that we work with the Department of Human and Health Services (DHHS), Interpreter Agencies, and Interpreter Training/Education Programs to combat an issue that is much more global than just those areas. There are many strategies that could be implemented, however it would require more than two years to notice a change, as it is a systemic issue, in addition to lack of knowledge among people running government agencies, and entities that should be providing communication access.

Regarding Interpreting Agencies and Interpreter Training/Education Programs being knowledgeable about providing communication access and resources available, the National Association of the Deaf - Registry of Interpreters for the Deaf (NAD-RID) Code of Professional Conduct already has this as an expectation, and the Commission on Collegiate Interpreter Education (CCIE) has standards for accreditation which include those expectations. The NAD does not have authority or oversight over both agencies and Interpreter Training/Education programs, however have worked closely with both RID and CCIE in the past to ensure access for all deaf individuals including those who are deaf disabled.

The NAD supports this proposal with modifications to allow a more comprehensive and strategic approach to addressing this important issue.

Problem to be addressed:

Given the time needed to establish the committee and raise awareness, the initial two-year timeframe has necessitated a renewal of the priority to sustain efforts towards achieving the 'Address Deaf Youth Well-Being' goal, which includes implementing 'NAD Deaf Youth Well-Being First Aid'.

Proposed Solution:

Renewing this priority for another two years will empower the committee to sustain their efforts, including ongoing data collection, enhancing community engagement with Deaf Youth Well-Being First Aid, creating a centralized webpage for deaf youth well-being resources, and participating in upcoming conferences and meetings.

Rationale:

The priority committee has dedicated the past two years to this endeavor, conducting one webinar, delivering three conference presentations, and engaging in numerous meetings with community members and organizations. To advance our efforts in promoting an inclusive mental health mentorship program for peer-to-peer learning and advocacy, we have initiated the development of a Deaf Youth Well-Being First Aid program, which is still in its early stages and thus requires renewal. This is particularly crucial for the NAD to focus on during the period of 2024-2026, given the stagnant or declining involvement of deaf youth with organizations, which is essential for the future health of our community.

Fiscal Impact:

Staff time will be impacted along with the committee's work.

Board/HQ Response:

The NAD recognizes the work that the Committee has done in the last two years. If this priority is passed - it just will reaffirm the work that NAD is already committed to.

Title: Deaf Community Needs: Access Emergency Announcements/Notification

Problem to be addressed:

Over the years, members of the Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened Community do not have full access to information when unforeseen circumstances that call for immediate communications from key individuals (i.e., government,

police) via media (i.e., internet, radio, television). For example, when the Francis Scott Key bridge collapsed, Maryland's Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened communities were among the last to be informed.

Proposed Solution:

NAD shall develop best practices, and guidelines for the State Associations and Affiliates to use to discuss with their state emergency preparedness offices. The NAD also should develop a letter for the State Association and Affiliate to use. NAD should provide webinars on the importance of emergency preparedness and to help State Associations and Affiliates to connect with the emergency preparedness offices.

Rationale:

Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened individuals deserve equal and timely emergency announcements and notifications. We are often the last to receive them.

Fiscal Impact:

Staff time will be impacted.

Board/HQ Response:

The NAD through its Policy Institute has been working on emergency preparedness. The NAD has resources on its website that are available. The NAD has been updating its position statement on the Emergency Preparedness Position Statement. The NAD supports this proposed priority.

Problem to be addressed:

Deaf Seniors experience barriers and isolation in the facility and staff do not know Deaf Culture or ASL.

Proposed Solution:

NAD continues the work of the NAD/DSA Taskforce on Deaf Seniors Issues and to include rentals (assisted living, and nursing homes).

Rationale:

Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened seniors face difficulties in obtaining accessibility to meet their needs. This issue is prevalent across the country and occurs every day. It's time to acknowledge this problem and take action to fight for the rights of Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened seniors. They need accessibility in American Sign Language (ASL) or their preferred sign languages in nursing homes, assisted living facilities, rehabilitation centers, centers for the aging, and even for caregivers at home.

Fiscal Impact:

Staff time will be impacted.

Board/HQ Response:

The NAD has had this as a priority for the last three terms. The committee has achieved a lot in the last 6 years. The NAD acknowledges that the committee still has a lot of work to do. The NAD is still committed to the work necessary to achieve barrier-free living for our Deaf Senior Citizens. The NAD encourages the Deaf Senior America (DSA) to take more leadership and responsibility for this proposal, and we will continue to support their efforts.

Problem to be addressed:

Language deprivation, or lack of early sign language acquisition and access for Deaf children from birth through age 8, is a huge constant problem in the U.S. Decades of research, especially from the Visual Language and Visual Learning Center at Gallaudet University, has shown the importance of early and quality sign language acquisition to build foundations for healthy cognitive and literacy development for all deaf children. A majority of our Deaf community members are not fluent bilinguals in ASL and English; instead, they struggle with a myriad of issues that stem from the trauma and adverse impact of language deprivation.

Proposed Solution:

This is a proposal resulting from the 2 years long committee work on the NAD Priority 2022-2024: ASL Resources for Deaf Babies. The committee has worked with 20+ leaders representing U.S.-based organizations involved indirectly and directly in language access and education of our Deaf children. Together, we designed a plan to establish a Community of Practice to end language deprivation. Our approach is a movement called DECLARE: Deaf

Children's Language Rights Everywhere. Through DECLARE, we have strategies and plans to create cohesion among organizations to build change in our systems, from legislation to education, family programming, resource building, and awareness campaigning. Our goal is to end language deprivation in a generation.

Rationale:

This work is a continuance based on the past decade-long priorities addressed by the NAD. We need to recognize the fact that this issue has been a huge problem in our community by eroding opportunities and quality of life for our Deaf citizens, starting from when they (and we) were children. This plan developed by the committee brings forth a fresh solution: push for a movement through a Community of Practice mechanism and structure to align our fractured community organizations and allies to create systemic changes our Deaf babies desperately need.

Fiscal Impact:

Staff time will be impacted and dealing with the committee as well. The committee got a grant to support this effort.

Board/HQ Response:

The NAD recognizes the work that the Committee has done in the last two years on the ASL Resources for Deaf Babies. The NAD is still committed to the work necessary to end language deprivation. If this priority is passed - it just will reaffirm the work that NAD is already committed to.

Title: Emergency Responders

Problem to be addressed:

Most public facilities do not have an emergency response light when notify that there is a shooting situation. Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened will experience a delayed response or do not know when there is a shooting emergency. Additionally, First Responders do not know how to communicate with the Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened people.

Proposed Solution:

The NAD should develop a position statement for each public facility to have a light when there is a shooting. The NAD also should work with federal legislation to strengthen the Americans with Disabilities Act to address First Responders. The NAD also should develop an advocacy letter for the State Associations and Affiliates to use to advocate for first responders to take ASL classes.

Rationale:

Our safety is the most important thing in our lives. Having additional visual cues such as flashing lights, and/or tactile alerts such as vibration on phones or other devices during active shooting will help the community to prepare better and know what to do. First Responders learning ASL will help improve communication between them and Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened people.

Fiscal Impact:

Staff time will be impacted.

Board/HQ Response:

NAD supports this proposed priority.

Title: Training Mental Health Professionals

2024-IL-(PUB)-09

YOUTUBE VIDEO <https://youtu.be/SwLuEtLL4KQ?feature=shared>

Author:

Tiasha Bera

Problem to be addressed:

1. Mental health professionals do not know how to provide care to Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened patients who have mental health issues.
2. Mental health professionals lack understanding of Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened patients who need individual accommodations such as on-site American Sign Language (ASL).
3. Mental health professionals often lack an understanding of Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened culture. They may not be sensitive to the unique needs of Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened patients, who face language barriers and may not have knowledge of mental health issues.

Proposed Solution:

The NAD shall create a plan for a series of "Mental Health and the Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened" training for individuals and staff in agencies, clinics and hospitals and to implement them to ensure that service provision is clarified and maximized for Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened individuals in order to have full access to the service and that the accommodations they need are met.

Rationale:

Mental Health has been a great concern in the Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened Community for so long. It is challenging for Deaf individuals to find the right persons to work with them and understand their issues. Thus the frustrations of not focusing on getting better, things get worse. Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened individuals do not have full access to Mental Health services that are offered (i.e., licensed therapists and hospital staff who are fluent in ASL and familiar with the challenges that Deaf, DeafBlind, DeafDisabled, Hard of Hearing, and Late-Deafened people face).

Fiscal Impact:

Staff time will be impacted.

Board/HQ Response:

The NAD has been working on the Mental Health Issues for years and years. The NAD also has several position statements on this. Other programs already provide training for professionals to work with deaf communities. Also, services vary by state insurance coverage and other matters. The NAD could develop guidelines for states to use and modify to match their state structures. It will not be feasible for the NAD to do the training actively.

Problem to be addressed:

DeafBlind people do not have a consistent program across the country for transportation with communication access (known as Support Service Provider or Co-Navigator, depending on the state). Funding sources are widely variable, ranging from volunteers to donations to Independent Living Part B grants to legislation actions (see Beth Jordan's research on SSP/CoNav programs).

Proposed Solution:

The NAD shall develop a draft letter for state associations to submit to Congress to pass a bill and establish a federal funding program for transportation and communication facilitators for DeafBlind, mobility disabilities, and Blind/LowVision people.

Rationale:

A federal funding source with a set of consistent regulations and minimum standards will make it easier for states to comply with and provide consumers with accessible transportation provided by people whom they can understand and trust.

While Administration for Community Living already has a program dedicated to making accessible transportation possible, it does not address:

1. Communication access for DeafBlind during transportation and during errands or events;
2. Long-distance transportation for social events (not possible outside of local transit systems);
3. Scheduling; and
4. Transportation expenses out of pocket.

Fiscal Impact:

The fiscal impact will be incurred by:

1. NAD staff time spent on developing the draft letter
2. NAD staff time spent on training state associations and outreach
3. Legislative outreach on the federal level if the proposal has moved on to Congress
4. State Association directors' time spent advocating in their states

Board/HQ Response:

The NAD already provides support to state associations through our legislative affairs coordinator when requested. The NAD can provide letters upon request for any state association advocating for bills within their state legislation.

Problem to be addressed:

The current NAD structure is obsolete. The organization needs to revamp the entire structure to be more Member friendly, less layers to successful interaction and results.

Proposed Solution:

To work with a Deaf professional consultant, as well as deaf-led non-profit experts to assess different ways to restructure NAD as a whole, including COR, NAD policies, programs, services, and more. This would be similar to the Fulton Munroe I, II, and III work done in the past.

Rationale:

NAD has recently experienced a crisis. The current structure of the NAD and its board is dysfunctional at this point and in serious need of restructure. The NPO experts will work with the new or interim CEO to identify areas for restructure and develop recommendations to share with all members by 2026.

Fiscal Impact:

Estimated costs for task force meetings, approximately 5k for a one-time in-person meeting. The rest can be scheduled via zoom and emails.

Board/HQ Response:

The NAD Board has already begun conversations on reviewing the NAD as a whole and has started working with a Consultant for strategic planning. The NAD is currently in a period of transition with its CEO, and will be doing this work. We support this priority proposal.
